

**CITY OF ALISO VIEJO
MEMBER OF THE CITY COUNCIL**

WILLIAM (BILL) A. PHILLIPS

AGE: 43

OCCUPATION: Incumbent/Urban Designer

Four years ago, I promised to help transition our community to cityhood, create a fiscally stable city, create a strong balanced community where residents can safely live, work and play, actively oppose the El Toro Airport and make sure that only the best quality projects were brought here. I kept those promises. Under my leadership as a founding member of the City Council, and your current Mayor, the City has:

- Completed our first General Plan
- Increased police services
- Developed a strong budget
- Taken actions to address urban runoff
- Increased services to our residents

However, I am most proud to have led the effort to increase revenue streams for the City.

Although much has been accomplished, more work remains. If reelected I will:

- Attract good businesses and jobs
- Increase recreational opportunities
- Improve traffic safety
- Increase communication with citizens
- Enhance our quality of life

It has been an honor to represent Aliso Viejo these last four years on the City Council, and with your vote, I promise to continue to ensure our City remains the premier community it is today.

Respectfully,
William A. Phillips
